MERO Consulting covers all aspects of software development targeting the .Net programming language including C#, VB.NET, MS SQL, and various front-end technologies. Rob McMonigal is the president of the company and has held software engineer, software architect, and software development manager positions at large companies such as RR Donnelley and Sons, and Armstrong Flooring Inc. He has been an architect for the state of Pennsylvania on CHIP and he has lead software development projects over 10 million dollars while managing over 40 developers.

CUSTOMERS:

TSP Consulting

State of Pennsylvania (through Deloitte) (Software Architect of CHIP)

SUMMARY

MERO Consulting is a veteran owned business that can provide and .Net programing application needed. We'll walk you through gap analysis, business requirements, cost analysis and feasibility before programming. As development begins we'll perform unit testing and periodic updates, along with system and end-to-end testing. When user acceptance testing begins, you can be assured that all the pieces are in place to ensure a smooth testing cycle and transition to production.
